THURSDAY.....MARCH 10, 1887

The Congregational ministers of Chicago differ somewhat in their opinions of the views held by the late Henry Ward Beecher. At a meeting of these clergymen, held Tuesday morning, it was proposed to send Mrs. Beecher a resolution of condolence by telegraph. This was opposed by a number of ministers, their opposition being based on the alleged heterodoxy of Beecher's views regarding future salvation and punishment. An acrimonious debate ensued, and finally a motion to adopt the resolutions unanimously was lost. Great excitement prevailed, and the utmost efforts were made to keep the affair from the newspapers. One clergyman contended that if the meeting as a body sent resolutions of condolence to the dying preacher, their action might be construed into an expression of opinion favorable to his theological sentiments. This was not the only attack made, however. One minister arose and said that he would not extend sympathy to a man who was charged with immorality, and had never cleared himself of the charge. He said that he doubted that Mr. Beecher had established his innocence of the offense of which he was accused by Tilton years ago.

The whole affair looks as if the clergymen who sat in judgment upon their brother, then at Death's door, have much to learn of the charity preached by St. Paul, and that it remains with the press to disperse truths calculated to inspire and cultivate the spirit of forgiveness that the saint desired to see. The following is clipped from the San Francisco Examiner of yesterday:

No human character is symmetrical and perfect. To some are given great mental faculties and dwarfed morality. To others perfect physical development and mental obtuseness. The world has but few examples of perfect men. There are visible indications from which impressions are formed. Each human being erects a standard of rectitude and judges every one by it. But no one has ever penetrated the inner life of his fellow being and traced the mistaken impulses, the false theories of life and wrongful impressions that have caused him to stumble by the way. Mr. Beecher had his faults. They were many and great ones. But who shall say that he could have been different if he had wished it. The ship perfect in all its parts, magnificent in proportions and design, will drift upon the breakers and the rocks if it be without a rudder to guide it, it can no more supply the missing mechanism of itself than the man can acquire the absent faculty which nature has denied.

A statement of the footing of the Appropriation bills passed at the last session of Congress was completed by the clerks of the Senate and House Committees on Appropriations Tuesday. It is as follows: Agriculture, \$1,028,730; Army, \$23,724,718; Diplomatic and Consular, \$1,429,942; District of Columbia, \$4,265,999; Indian, \$5,220,597; Legislative, \$2,701,221; Military Academy, \$419,938; Navy, \$25,753,165; Pensions, \$76,225,500; Post Office, \$55,694,650; Sundry Civil, \$22,382,490; Mexican Pensions (deficiency), \$6,900,000; Public Printing (deficiency), \$107,000; Miscellaneous Appropriation (estimated), \$2,500,000. The total of actual appropriations is \$247,387,144. The River and Harbor bill, which was not signed, appropriated \$9,913,800, and the Deficiency bill, which did not pass, though it was agreed upon in conference, carried an appropriation of \$4,275,023.

Several designs have been received at the Navy Department in answer to a circular sent out last August to the naval constructors of the United States and Europe through the Department and consular officers offering a good price for two sea-going armored vessels of about 6,000 tons displacement, and sixteen knots speed, with torpedo outfit and effective armament.

It is said that the influence of the Crown Princess of Germany, of which great nation she will probably be the next ruler, has had much to do with the recent elections there. Bismarck is said to fear that she will, upon his death, force Germany into a Russian war in order to sustain the English interest in Bulgaria and Turkey.

FUNERAL OF MR. BEECHER

Stanley's Relief Expedition at Capetown.

MISS NILLSON'S MARRIAGE

Difficulty in Finding a Papal Secretary of State.

(PRESS DISPATCHES TO THE GAZETTE)

Mr. Beecher's Funeral.

New York, March 10. In spite of the rain, the streets in the vicinity of Beecher's home were crowded with people this morning. At 8 o'clock a squad of police took up their stations in front of the house. A large number of floral emblems were received before the private services commenced. The remains were dressed in a suit of black broadcloth with frock coat buttoned up and right hand across the heart. The features were natural and there was a smile upon the face. The long-grown hair was brushed back over the ears, the same as he wore it when alive. Promptly at 9:30 Rev. Charles H. Hill, of the church of the Holy Trinity, entered the house, and soon after entered the front parlor and commenced to read the burial service from the ritual of the Episcopal church. While the services were in progress in the house, a company of the Thirtieth Regiment was drawn up in front of the house. Only the members of the family and a few intimate friends were present during the services at the house. None of the family were dressed in black.

An American Invention.

WASHINGTON, March 9. The officers of the Ordnance Corps are very much gratified with the performance of the new eight-inch steel rifle, now being tested at Sandy Hook. This gun was built at the West Point foundry of English and domestic steel. Thirty test rounds have been fired, and the trials will be continued during the summer. With a shot weighing 289 pounds and a charge of American brown powder, the initial velocity of the projectile was 1,875 feet, and the energy developed at a distance of 1,000 yards was equal to 7,000 foot-tons. General Bennett says the results have been carefully compared with the records of trials of the new navy gun and Krupp, English and French guns of the same caliber, and establish the fact that the army eight-inch steel rifle is fully equal to the navy gun and better than the guns of corresponding caliber made by foreign manufacturers.

Railroad Matters.

CHICAGO, March 10. At a meeting yesterday of the National Association of General Baggage Agents, an attempt was made to compromise on a uniform charge of 15 per cent, of unlimited first class, for an excess of baggage, but both the east and western managers rejected the proposition. The former will adhere to the 12 per cent, established, and the roads of Chicago will continue to charge 16 per cent. A consolidation was effected between the West and Southwestern Passenger Association. The new organization will be known as the Western States Passenger Association. An Executive Committee was created consisting of the General Managers of the Association lines. J. N. Abbott was made Chairman, he taking that title instead of Commissioner. Interstate passes were abolished and each road was left to deal with State passes as it pleases. A system of penalties and fines will be established to be inflicted for infractions of the Association rules.

A Stranded Steamer.

NORFOLK, Va., March 10. The steamer, Goldsboro, which arrived here last evening from Philadelphia, reports passing at 9:30 o'clock yesterday morning, the North German Lloyd's ship, Rheing, from Bremen for Baltimore, ashore off Hog Island. She was lying from three to four miles from shore, hard aground, with her starboard anchor out. Boats were passing between the Rheing and the Old Dominion steamer, Richmond, which was rendering the necessary assistance to the stranded vessel. The wind was light, east-north-east, but freshening, and the weather was getting thick. The Old Dominion steamer, Wyanoak, from New York for Norfolk, had not passed in at the capes at 3:30 yesterday afternoon, and it is supposed she stopped to assist the Richmond in rendering aid to the stranded steamer which has a large passenger list.

Among the Everglades.

JACKSONVILLE, Fla., March 10. Senator Sherman and party arrived here this morning. They leave here this afternoon for Stanford, enroute to Tampa and Havana.

A Consular Appointment.

WASHINGTON, March 10. The President this afternoon appointed Charleston H. May, of Virginia, to be Consul General of the United States at St. Petersburg.

Death of Captain Eades.

NASSAU, N. H., March 10. Captain James B. Eades died here on the 6th instant of pneumonia.

Sentenced to Prison.

NEW YORK, March 10. Louis Bierett, who attempted to kill

the Surveyor of the Port, Hans S. Beatty, in the Custom House last October, was sentenced to-day by Judge Benedict in the U. S. Circuit Court, to five years' confinement in the State prison.

FOREIGN DISPATCHES

The Admiralty Censured.

LONDON, March 10. The Daily News, commenting on the statement that the Admiralty has sent a complete design of the Iron clad Agamemnon to Washington, at the request of the American Government, says: It is pleasant to be on good terms with America, but perhaps in the whole it will be as well if the Admiralty to keep its designs to themselves. In regard to the Terry affair, the News says the matter ought to be thoroughly sifted and presented. We cannot doubt that the American Government will be able to clear itself of all complicity.

The Stanley Expedition.

CAPETOWN, March 10. The Stanley expedition for the relief of Emin Pasha, which left Zanzibar about two weeks ago, arrived here last evening, and will proceed to-day to the Congo river, which Stanley expects to reach by the 15th inst. The men comprising the expedition are all in fine condition.

Another Refusal.

ROME, March 10. It is announced that Mr. Rempolla the Nuncio at Madrid has refused the office of Papal Secretary of State. The Austrian Government urges the appointment of Mr. Van Nottel, the Nuncio at Vienna, to the vacant post.

A Bank Failure.

ST. JOHNS, N. B., March 10. The private banking firm of McLellan & Co. of this city have suspended payment temporarily, in consequence of the failure of the Maritime bank.

A Deadly Explosive.

PARIS, March 10. At Marlo, an explosion of melinite, the new explosive, occurred to-day in the arsenal at Belfort. Many men were killed and injured.

Nillson Married.

PARIS, March 10. Christine Nillson has been married to Count Miranda and it is reported she will retire from the lyric stage.

WESTERN DISPATCHES

Effects of the Recent Drummer Decision.

SAN FRANCISCO, March 9. The eastern drummers in this city, actuated by the recent decision of the United States Supreme Court, have refused to pay the usual licenses. The Court held that the collection of such licenses was an infringement of the right of Congress to regulate commerce between the States. License Collector O'Brien's Deputies called upon some newly arrived drummers yesterday, but were met with a refusal by them to pay license. Mr. O'Brien has referred the matter to the City and County Attorney, asking him for an opinion whether he is debarred by the recent decision of the Supreme Court from collecting licenses of drummers. The question is important and will affect most merchants here, as not only labor, rent, etc., higher here than in the East, but the business now done may, by the presence of eastern drummers, be reduced to eastern rates in every respect.

Masonic.

The centennial of Masonry will be celebrated in Baltimore next May, and it is believed that at least 8,000 of the craft from all parts of the world will be there.

In the United States and Territories there are 2,183 chapters of Royal Arch Masons, aggregating a membership of 130,250, or an average membership to a chapter of 593. The Canadian boast of 100 chapters and 4,351 members, averaging to a chapter 43, or 16 less than their American neighbors, and 340 councils of Royal and Select Masons, and a membership of 24,733, with an average of 573 members to a council, are established in the United States.

Greatly Excited.

Not a few of the citizens of Reno have recently become greatly excited over the astounding facts, that several of their friends who had been pronounced by their physicians as incurable and beyond all hope—suffering with that dreaded monster Consumption—have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively cure all throat and lung diseases, coughs, colds, asthma and bronchitis. Trial bottle free at S. J. Rodickson & Co.'s drug store; large bottle, 50c.

Announcement.

James P. Hixson, representing the merchant tailoring establishment of Gordon Bros., 329 Kearney street, San Francisco, has arrived in Reno and will remain at the Palace Hotel a few days, and have on exhibition a full line of sample goods for gentlemen's wear, suitable for the present and coming season. Those wishing first-class custom-made clothing will do well to give him a call. He is the only scientific, practical cutter who has taken diplomas in the principal cities of the East for correct measuring, skillful labor, a perfect fit, and who is soliciting orders. There are a great many adventurers traveling who are not tailors and who do not represent a responsible house, who cannot take a correct measure, subjecting the people to great annoyances and loss. Hoping that the public will encourage a scientific man to do their work, M. Hixson is recommended. *8d3

Wretched, Indeed.

Are those whom a confirmed tendency to biliousness, subject to the various and changeable symptoms indicative of liver complaint, nausea, sick headache, constipation, furred tongue, an unpleasant breath, a dull or sharp pain in the neighborhood of the affected organ, impurity of the blood and loss of appetite, signal to you one of the most distressing, as it is one of the most common, of maladies. There is, however, a benign specific for the disease and all its unpleasant manifestations. It is the concurrent testimony of the public and the medical profession, that Hostetter's Stomach Bitters is a medicine which achieves results speedily felt, thorough and benign. Besides rectifying liver disorder, it invigorates the feeble, conquers kidney and bladder complaints and hastens the convalescence of those recovering from enfeebling diseases. Moreover, it is the grand specific for fever and ague.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Apletine Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinner is agent for these celebrated "Apletine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

Make no Mistake.

By dispelling the symptoms so often taken for consumption, SANTA ABIE has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this remedy in your house. CALIFORNIA CAT-R-CURE is equally effective in eradicating all traces of nasal catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, Reno, Nevada.

A Liberal Reward.

Sheriff Ullrich, of Ormsby county, is in receipt of a \$500 reward notice from David G. Brown, of Fort Benton, Choteau county, M. T., for Henry Wright, who skipped out with 35 head of horses. Wright has been a livery man and is a good hand with horses. He is a large man, six feet high, very stoop shoulders, has an awkward gait, light curly hair, has a habit of hanging his head when walking along.

A GOSSIPY LETTER.

NEVADA'S NEW LAND AGENT IN WASHINGTON.

What He Has to Say of Matters of Local and General Interest.

From a personal letter dated March 2d, and received yesterday from C. S. Young, our new Land Agent in Washington, are taken the following items of interest:

Arrived here last Sunday night. Am hard at work. The Bureau of Education, of the Department of the Interior, has placed at my disposal three clerks; some are tending out all over the country circulars and personal letters booming the coming meeting of the National Department of Superintendence. Have sent out yesterday and to-day 500 personal letters, and will continue to send out either letters or circulars relating to the meeting for several days to come. The prospect now is that this will be one of the largest meetings ever held by this association.

George T. Gorman telegraphs that he will come over from Philadelphia on Monday next to turn over the official papers of the land office, and to introduce me to the Government officials with whom I shall have to do business.

I have seen considerable of Senators Jones and Stewart. Jones takes great interest in legislative matters this session. He says this Administration is terribly down on Nevada, and that it is a helpless task to try to get for our State even the least favor. Jones, with his family, will return to Nevada within a few days after the close of the session. Stewart is in the Senate every day, getting used to his new duties. Both Jones and Stewart are happy over the fact that to-day the bill passed, ceding the northern part of Idaho to Washington Territory. This, they think, insures the annexation of the southern part of Idaho to Nevada. Delegate DuBois also, to-day, said to these Senators, in my presence, that the action of Congress in this matter virtually settles this question of annexation. He does not think the people of Southern Idaho will any longer continue their opposition to the project. [Note—This bill was pocketed by His Majesty, the President.—Ed.]

Woodburn made the fight in the House yesterday to have inserted in the appropriation bill the same amount as last year for running the Carson Mint. In this he was successful, as was our delegation in the Senate. This means, however, that it is to be continued as an Assay Office, and no longer as a Mint.

Of all the Chief Executives that this nation ever has had, Cleveland is probably the most generally disliked. He has no friends. Democrats and Republicans alike regard him as the chief of blunders. Even the Democrats who pretend to support him in Congress do it in the hope of receiving in return patronage either for themselves or their friends. It is a common remark on the streets here relative to the sentiments of leading Democrats who are supposed to be supporters of the Administration: "Well, that's all right; they have it in for him; now you see."

My address is and will continue to be, Metropolitan Hotel, Washington, D. C.

The Rabbit Pest.

The increase of ten cents in the taxation on each \$100 valuation in Humboldt county over that of last year was deemed necessary by the Board of Commissioners to meet the requirement of the Rabbit Scalp Act, which, says the *Silver State*, is expected to drain the treasury of several thousand dollars. On Tuesday the Commissioners allowed bounties to the amount of \$1,007 95 for bounties on rabbits, coyotes, and wild-cat scalps. The *Independent* says certificates for bounty on about 20,000 rabbit scalps were presented to the Elko Board of County Commissioners Monday.

The Chinese Consul General.

Mr. Liang Ting-tan, H. I. C. M's Consul General, San Francisco, and two attendants, were among the west-bound passengers yesterday evening. Quite a party of local celebrities gathered at the depot to catch a glimpse of His Majesty. Seeing their anxiety, he appeared on the steps of the Pullman, bowed and smiled to them, and told in his native tongue something of what he had accomplished while in Washington. He was arrayed in purple silk, and was regarded with great respect by the Chinamen, who were eager to catch every word he said.

Peavine District.

On account of the snow, but little work is being done in the Peavine mines, north of town. Active operations there, it is said, will shortly be resumed in properties that promise to become during this summer large bullion producers. Among the miners at work there now are two in the Corliss and four in the old Hagerman mines.

Special School Tax.

The following was the vote on the special school tax yesterday: First Ward, yes 27, no 10; Second Ward, yes 48, no 18; Third Ward, yes 60 no 41; majority for tax 65.

FOR DYSPENSIA and liver complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. I never failed to cure. Sold by Osburn & Shoemaker.

PERSONAL.

Mrs. H. W. Higgins and son, Henry, went below last evening.

A. A. Nickerson returned this morning from a trip to the Bay.

Hon. H. F. Pangler, of Douglas county, was in town last evening.

Hon. W. H. A. Pike and C. H. Stoddard, the heavy-weight, arrived from Carson last evening.

Colonel Hardin, of Quinn River, and Professor Price, of San Francisco, passed East this morning.

Attorney General Alexander and wife arrived from Carson last night, and Mrs. A. proceeded on to the Bay.

Dr. J. J. Moore, the dentist, has returned from an extended professional visit to Plumas and Lassen counties, Cal.

A private letter written at Plaine, Wayne county, Ohio, was received by a GAZETTE reporter this morning from H. H. Beck, saying that after visiting friends in Indiana and Iowa, he will start home about the 26th instant.

Congressional Bills Pocketed.

Fifty congressional bills, in addition to those which became laws and those vetoed, were sent to the President, but were pocketed by him at the adjournment of Congress, and therefore failed; the most important of which were as follows: The River and Harbor.

To prevent the employment of convict and alien labor on public works.

To open to settlement a strip of land south of Kansas.

The O'Neil Arbitration bill, for the settlement of controversies between interstate railroads and their employees.

Surplus resolution.

To annex a part of Idaho to Washington Territory.

The Northern Pacific Forfeiture bill.

Truckee Items.

The *Republican* says:

There is considerable passenger travel on the Sierra Valley stage. If it keeps warm there will be bare ground on the plaza in another week.

The ice on Donner lake is very thin and rotten and is liable to break up any day.

The first copy of the new Dutch *Flat Times* has been issued. Dutch flatlanders ought to support it liberally.

The box factory of the Truckee Lumber Company, is busy filling an order for 40,000 salmon cases to go to Alaska.

A party of Truckeeites went out to Independence lake this morning on a fishing expedition. The fish there are biting well, so it is said.

The Smoking Habit.

The Carson *Appeal* hopes the law prohibiting boys under 18 from smoking cigarettes and cigars, will be stringently enforced. Carson is full of shallow-faced, hollow-chested, spindle-shanked boys who are wasting their brains and bodies trying to suck the nicotine out of Cigars.

They make the mistake of thinking that they can become men earlier, by embracing men's bad habits, not seeming to realize that they are following the very course that will keep their growth back several years.

Valuable Mines Discovered in Humboldt.

The *Silver State* says that the mines discovered by Dr. Banks and Ben Marshall in the range east of Lovelock prove to be nickel. They are located about six miles from that town, and contain apparently large bodies of high grade nickel ore. The same persons also discovered large deposits of gypsum, for which they have ascertained there is a brisk demand in California.

Western Union Telegraph.

The Western Union Telegraph laid a new cable between Port Costa and B-njels March 6th. With the exception of a short distance on the Rocky Mountains, this cable completes the copper wire constructed between San Francisco and Chicago by the Western Union. The new wire will be worked by the Wheatstone automatic system.

Frozen to Death.

William Woods, while going from Revelle, Nye county, to his home, a mile and a half distant, on the evening of the 24th of February, lost his way and was found frozen to death two days afterwards. He went to Revelle from Ward about the 1st of last August, and is supposed to have relatives in San Francisco.

Hawthorne Knights of Pythias.

The Lodge of Knights of Pythias at Hawthorne had a grand time last Saturday night. The three ranks were conferred on 13 candidates, and a large number of visitors from Virginia City, Gold Hill and Dayton went to assist. The Lodge is on a firm footing and in a prosperous condition.

Live Stock.

Stock shipments are light at present. Thirteen carloads are expected in from Winnemucca this evening, when they will be rested until to-morrow night or Saturday morning. Twenty-seven carloads will leave to-morrow for Oakland and San Francisco.

BREVITIES.

Local and General News.

Leon MaLotte is reported very ill with pneumonia.

Governor Stevenson has approved the Havenor bill.

James Miller last evening shipped two cars of beef cattle to Frank Armour, Dutch Flat.

The Nevada Live Stock Association will hold its annual meeting in Reno next Tuesday.

The engineer of the Morgan mill at Empire had his hand badly crushed yesterday morning.

There will be a meeting of the Nevada State Board of Agriculture in Reno on the 16th instant.

A number of needed improvements about the Court-house are being agitated by county officials.

The special car "City of Saginaw" of a Michigan road, was attached to this morning's east-bound express.

Six and three-eighths cents net is said to be the highest price paid this season in Reno for beef cattle.

A special Chicago & Northwestern car containing E. S. S. and party of that road, passed east this morning.

Savage levied an assessment of 50 cents a share this morning. Nevada Queen followed suit with one of the same size.

The ladies of Livermore, Cal., have organized a society for the purpose of planting trees in front of each piece of property in town.

The country generally is getting the full benefit of the recent large fall of snow, which is melting gradually and soaking into the ground.

There is said to be a growing belief that Pete Olsen, the Napa murderer, has suicided and that his body is in the thick brush of the rough country.

The Republican majorities at the recent Sacramento city election, range from 1,746 to 2,243. The Grand, Old party seems to still have considerable life at California's capital city.

It is thought the Commission to investigate the Pacific railroads will be appointed this week. Randolph Tucker and Barclay Henly are both said to be candidates for positions on the investigating commission.

A dispatch was received at Noyales last Tuesday night, stating that Secretary of State Bayard had demanded from the Mexican Government the immediate surrender of the Lieutenant and the soldiery who were engaged in the fight the other evening.

Congestion of the Kidneys.

S. J. Thompson, of No. 487 Swan Street, Buffalo, New York, writes of his remarkable cure of congestion of the kidneys: Three years ago I was attacked with congestion of the kidneys. My physician, besides administering internal remedies, had applied on my back, over the affected regions, two Alcock's Porous Plasters. I recovered in the course of about two weeks. A year after, exposure brought on a similar attack, but it seemed as if the congestion was more severe. Certainly, I had more pain and difficulty in passing water. Instead of calling a doctor this time, I concluded to try plasters alone, so I purchased a box of Alcock's Porous Plasters, and applied two fresh ones every day. The pain quickly lessened, the water flowed more freely after the first application, and in just six days I was completely restored and able to resume my occupation.

THE GREAT STUDY OF Mankind is Man.

And who e'er his wondrous frame doth scan, ponder and devise to cure an ill, whether by device, fruit or pill, an equal benefactor is he; and we baste, the inventor of a Cathartic of delicious taste, to do him honor. Who remembers not how the distressed mother, her child's entreaties tries to smother, that she insist not the horrid dose be taken, the remembrance e'en now does nausea awaken, and fond father, to be witness of his child's torture, would rather pay high price, if money could purchase Cathartic rice. We have it now! And great Dr. Parr's name, appears upon the scroll of Eccelesian fame, for after long study what would suit, has his upon *delicious fruit* to cure our ills. MISCELLANEOUS.

A Pretty Woman's Secret.

Fear of discovery, when she resorts to false hair and dyes, is a source of constant anxiety to her. The very persons from whom she most desires to hide the want of her charms are the ones most likely to make the discovery. But there is no reason why she should not regain and retain all the beauty of hair that was her pride in youth. Let her use AYER'S HAIR VIGOR, and not only will her hair cease to fall out, but a new growth will appear where the scalp has been denuded; and locks that are turning gray, or have actually grown white, will return to their pristine freshness and brilliancy of color. AYER'S HAIR VIGOR cures

Hereditary Baldness.

GEORGE MAYER, Flatonia, Texas, was bald at 23 years of age, as his ancestors had been for several generations. One bottle of HAIR VIGOR started a growth of soft, downy hair all over his scalp, which soon became thick, long, and vigorous.

Ayer's Hair Vigor

is not a dye, but, by healthful stimulation of the roots and color glands, speedily restores to its original color hair that is turning gray.

Mrs. CATHERINE DEAMER, Point of Rocks, Md., had her hair suddenly bleached by fright, during the late civil war. AYER'S HAIR VIGOR restored it to its natural color, and made it softer, glossier, and more abundant than it had been before.

Scalp Diseases

Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and annoying sores, are all quickly cured by AYER'S HAIR VIGOR. It cured HERBERT BOYD, Minneapolis, Minn., of intolerable itching of the scalp; J. N. CARTER, Jr., Occogan, Va., of Scald Head; Mrs. D. S. LOVELESS, Love'sville, Ky., of Tetter Sores; Miss BESSIE H. BEDLOE, Burlington, Vt., of Scald Disease and Dandruff. Topicality of the roots of the hair, which, if neglected, may result in incurable baldness, is readily cured by AYER'S HAIR VIGOR. As

A Toilet Luxury

AYER'S HAIR VIGOR has no equal. It is colorless, cleanly, delightfully perfumed, and has the effect of making the hair soft, pliant, and glossy.

Pressing Home.

They were walking in the conservatory at the last White House reception.
"Will you love me with all your soul?" she murmured.
"Yes, darling," he answered.
"And all your heart?"
"Yes, dearest."
"And all your—"
"Everything, darling, everything," he interrupted.
"Focket-book?" she continued, not noticing the interruption.
He gasped once and all was over.—Washington Critic.

An Albuquerque editor who expected a gang of lynchers to come for him about the middle of the night, took himself to the cellar, leaving a pet grizzly bear in his place in bed. The lynchers didn't bring any lights, but made a plucky attempt to get the bear out and lynch it, but gave up after three of them had lost an eye apiece, two had suffered the loss of thumbs chewed off, and the other six were more or less deprived of skin. That man now has a tremendous reputation as a fighter; and the bear didn't mind the work one bit.—Denver Tribune.

Prince Liechtenstein and other great land owners in Austria have resolved to make an attempt to restock the vast forests of Styria with elks. The Prince has ordered a well-known Hamburg dealer to provide him with three herds, which will be turned out in the forests on his estate. The Emperor Francis Joseph, who is an enthusiastic sportsman of the genuine Tyrolean type, heartily approves of the project. An experiment of a somewhat similar kind is being tried in Bohemia by Count Czernin-Morzin, who has introduced chamois from the Tyrol and Switzerland on the mountain range around his hunting seat of Marschendorf.

Enjoy Life.
What a truly beautiful world we live in. Nature gives us grandeur of mountains, plains and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up, disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfaction by proof that Gree's Angust Flower will make them as free from disease as when born. Dyspepsia and liver complaint are the direct causes of 75 per cent. of such maladies as biliousness, indigestion, sick headache, constipation, nervous prostration, dizziness of the head, palpitation of the heart and other distressing symptoms. Three doses of Angust Flower will prove its wonderful effect. Sample bottle, 10 cents. Try it. nov29/87

Petition for Order Directing a Sale of Real Estate.

IN THE DISTRICT COURT FOR THE State of Nevada, in and for the county of Washoe, in and for the district of the estate of M. C. Lake, deceased.
The petition of Charles T. Bender, administrator of said estate, having been submitted to me by said administrator, and upon examination thereof, I believe it necessary to sell some portion of the real property belonging to said estate of M. C. Lake, deceased, for the purpose of paying debts and costs of administration against said estate remaining unpaid, it is therefore ordered that all persons interested in said estate be and appear before said Court at the Court-room at Reno, in said county of Washoe, at 10 o'clock in the forenoon, on the

22d Day of March, 1887.
Or as soon thereafter as said petition can be heard, for the purpose of showing cause, if any they have, why the prayer of said petitioner should not be granted and an order made authorizing and directing a sale of a portion of the real property of said estate for the purposes above mentioned as shall be necessary.
The foregoing order is made this 19th day of February, A. D. 1887, at Judicial Chambers at Reno, in said county.

SOMETHING NEW.

More than two-thirds of the Expense of putting up and Feeding Hay Saved by

CLIMAX RAKE, CLIMAX LOADER, CLIMAX STACKER, CLIMAX HAY RACK, with attachments for unloading into feed racks.

FOR HANDLING HAY OR GRAIN, the Climax Machines excel all others by great odds. Each and all of these inventions are warranted to do all claimed for them. They are no experiment, but HAVE BEEN TRIED AND TESTED by the actual work of hundreds, and received the unqualified indorsement of all.

This is to certify that last season we used the Climax Stacker in putting up 1500 tons of hay, mostly blue joint; that it did its work well, and in my estimation is not equalled by any stacker or hay-lifting appliance on this coast.
